

Four warehouses in Garbagnate Monastero: two for converting and two for storage

Vittorio Giovanni Cima – C.E.O.

Cima Paper S.p.A. is a service-oriented Company, located in Garbagnate Monastero (LC), close to Milan Italy, marketing a full range of paper, containerboard, paperboard materials and raw materials. The Company was founded by the Cima family, which has a long **tradition** in the paper industry, **since 1757**.

Product, Logistic and Converting

Cima Paper S.p.A. markets a full range of paper and paperboard products in addition to a full line of specialty services providing customers with a **consistent** supply and **quality**.

In addition the Company offers:

- Containerboard
- Paper for the production of tubes, cores, rings and edge protectors
- Kraft paper for shopping bags and small bags
- Paper and cardboard for packaging
- Waste paper and pulp

Cima Paper S.p.A. warehousing facilities are **strategically placed**, close to Milan and to Livorno port, making the Company an ideal choice for customers and suppliers. At Livorno port we have a warehouse of 10.000 square meters, which is a strategic hub for the sorting of goods throughout Italy.

The Company has a **modern** and **efficient** cutting center, with four operating rewinding machines and cutters.

2014 - 2018 STRONG RESULTS

2018 - 2020 NEW PROJECTS

Cima Paper S.p.A. is now focusing its investments on **internationalization**. The Company is approaching new markets to find new opportunities, quality paper (in particular virgin grades and high quality of raw materials) and long term partnerships with their main suppliers. The project may grow up with the establishment of a branch on the US territory.

Cima Paper S.p.A. is also investing in a **new building** in Livorno equipped with state of the art converting machines to improve their capacity and services and opened a new cutting center close to Salerno in order to better serve the southern Italian market. The focus is on providing solutions and alternatives to customers to support them in optimizing and maximizing productivity, profitability and utility to the Company.
